The October 14, 1959 meeting of the Rocky Mountain Railroad Club will be held in the Farmers Union Auditorium, 16th & Sherman, Denver, Colo., at 8 P.M. The program will be colored movies by Charles Max and Warren R. Bailey. Charles will show movies with sound of the Canadian National and Southern Pacific Railroads. Rusty will show colored movies of the Cable Car & Key System out in California, and also slides of the Southern Pacific and Canadian Pacific.

In addition, Bert Fullman has received a selection of slides from Herb O'Hanlon of Mt. Vernon, Ohio (formerly of Denver). The slides that Herb sent were taken on a trip east (of Ohio) where Herb visited such places as Edaville, Mass. (home of the 2' gauge) and Mt. Washington (cog-line with steam) as well as other places where steam still can be found.

In talking to Dick Kindig, he tells us the printing is complete on the main part of the book, "The Pictorial Supplement to Denver, South Park & Pacific". The time tables and maps that go into the cover pockets are being worked on and the binders are expected to start the binding of the book by the end of October. The colored pictures (8) that are used in the book can be purchased from the Colorado Railroad Museum after the book has been published. These pictures will be suitable for framing.

The Chairman of the Committee of the repair of equipment, William Gordon, reported that work is progressing slowly but surely on the Birney, the window sills have been given an undercoat of paint and the coat of red has been started. The roofs on both street cars have been sealed. Considering our recent weather, that is good news.

Recent visitors in Denver have been: Fred Jukes of Blaine, Washington. Mr. Jukes was employed on the Colorado Midland and other railroad lines in the state. He also worked as a photographer and he took a number of railroad photos which have become famous. Some were used by Lucius Beebe in his recent book "Age of Steam". Also visiting his friends around Denver was Al F. Lyons of Durango, Colorado. Al is a conductor on the D&RGW RR Narrow Gauge. During the summer time he works the Durango-Silverton line.

The two remaining programs for the year 1959 will be as follows: November - Charles Ryland will give a program on the Railroads of Golden, Colorado; December - our program will be given by George Champion - the last trip through the Alpine Tunnel as the pilot on a snowplow. George is one of the last D.S.P. & P. RR employees - he worked as an Engineer, Fireman, Hostler and Nut Splitter.

M. C. Poor, Pres.
D. K. Peterson, Vice-Pres.

Ane C. Clint, Treasurer
Mike Blecha, Secretary
