RAILROAD

Club Member, John Birmingham, has promised to have both his 2-foot gauge steam engines in operation, Saddle Tank No. 3 and Mallet No. 1, on Saturday, July 13, 1968. One will be reserved for the exclusive use of the Club and when business is slow, we may be able to doublehead. Your ticket entitles you to spend the entire day, or as much of it as you wish, riding on the railroad. Take your lunch and ride out to a picnic area at the end of track, about 1 mile from Cripple Creek. The railroad is built south from the Cripple Creek Depot on the old Midland Terminal grade. John says that all you amateur engineers will be allowed to operate the locomotive, under supervision, of course.

ROUTE

The quickest way to Cripple Creek is via Interstate 25 to Colorado Springs, then west on U.S. 24 to Divide, and south to Cripple Creek on State 67, about 110 miles, requiring approximately 2 to 2-1/2 hours driving time.
